NOTABLE SOFTWARE PROJECTS

PROJECT   **DIG ID [LOGIUS] (SOCIAL SECURITY SYSTEM) -CAPGEMINI JUN' 2013 – MAR' 2014**
ROLE   **MANUAL TESTER AND TEST LEAD**

RESPONSIBILITIES

- Functional Testing, Regression Testing, Sanity Testing and end to end testing
- Preparing test plan & test estimates.
- Developing test cases, executing test cases, generating defect reports
- Identifying the bugs in the Testing process and Bug reporting using TeamForge
- Preparation of the Traceability Matrix to validate the test coverage

DESCRIPTION
DigID stands for Digital Identity. With a DigiD (username and password) users can access a great number of online services offered by Dutch government agencies.
Logius Systems are used by People as well as by Call centre agents for creating, activating & revoking Authorization request.
Later on these authorizations are used for many services offered by Government like Tax filling etc

ENVIRONMENT   Windows Server XP, Windows 2008 Server, PLSQL, Google Chrome

PROJECT	BAS- ODS – UWV (SOCIAL SECURITY SYSTEM) –CAPGEMINI SEPT' 2010 – JUN' 2013
ROLE	MANUAL TESTER AND TEST LEAD

RESPONSIBILITIES

- Functional Testing, Regression Testing, Sanity Testing and end to end testing
- Preparing test plan & test estimates.
- Developing test cases, executing test cases, generating defect reports
- Identifying the bugs in the Testing process and Bug reporting using Bug - Tracker
- Preparation of the Traceability Matrix to validate the test coverage

DESCRIPTION

As part of the Dutch Social Security System, UWV is the agency which administers the workers' social insurance schemes for sickness, disability and unemployment benefits. The institute has an extended network of regional and local agencies performing the basic social insurance administration functions (collection of contributions, claim assessment, benefit payments, initiation of reintegration activities). Capgemini being the solution provider for this system, it has to take care of the huge amount confidential data that flows on and off in this system. For this robust solution ODS has been framed which would work as a data storage system enabling other business application to run smoothly and efficiently.

ENVIRONMENT Windows Server XP, Windows 2008 Server, ASP.NET, Oracle 11.2.0, SQL Developer
